Tax

Increased capital allowances for global pharmaceutical manufacturer

A large global pharmaceutical manufacturer was challenged in relation to claiming Capital Allowances following a major expansion of a specialist production facility in the UK.

The work

Detailed analysis of the construction project and disaggregation of the different categories of assets, including a complex aseptic facility, enabled an accurate computation of expenditure that was presented to HMRC to claim capital allowances.

The outcome

The manufacturer was able to justify a significant increase in their claim for further Capital Allowances to UK tax authorities.
